QUALITY SEEDLINGS AND FLOWERING PLANTS

For those interested in select, quality breeding, we recommend consideration of the following listing. The parent plants used have been carefully selected with the ultimate purpose in mind of fine flowering results.

When purchasing hybrid seedlings, one should first consider the origin of the cross. The best can only have serious thought, experience and quality breeding stock as its background. We sincerely believe the seedlings listed here fill these requirements. All are well established, in fine, healthy cultural condition, the majority of which are now ready for a shift into larger pot sizes.

Our experience in orchids dates back to 1896, we being the oldest established orchid concern in America. Our breeding stock is being continually improved through careful selection.

OUR BREEDING STANDARDS

- Free flowering qualities
- Vigorous, strong growth
- Proven Parentage
- Flowering season
- Size and shape
- Texture
- Color

This listing cancels all previous lists and special quotations.

All plant stock offered subject to prior sale.

All shipments made F.O.B. Summit, N. J., and our responsibility ceases when shipment is turned over to the carriers. We make no charge for packing.

Terms are net 30 days when credit is established; otherwise, cash with order. All remittances from outside the United States should be in New York funds.
